## Soft-Serve Mix Powder

Cold-Soluble Mix for Soft Serve and Frozen Desserts

### Just Add Milk. Churn. Serve.

Consistent soft serve made simpler for busy foodservice operations.

**SOOPER** Soft-Serve Mix Powder is a cold-soluble, easy-to-prepare mix developed for ice-cream parlours, cafés, hotels, QSR chains and professional dessert counters. Simply blend one 1200 g pack with five litres of milk adjusted to the required milk-fat level, transfer the prepared mixture to compatible churning equipment and serve smooth, colourful and consistent soft serve.

**1 pack (1200 g)**  
= minimum 6 litres  
= approx. 80 servings  
of 75 g each

Actual output and overrun may vary according to equipment and operating conditions.

### KEY BENEFITS

Just add milk

Cold-soluble mix

Consistent taste, texture & colour

Low skill dependency

Fast staff training

Ambient-stable premix

Long shelf life

Multiple equipment options

### AVAILABLE FLAVOURS:

## 2 Simple Preparation

## 3 Output & Yield

- ✓ Standard recipe: 1200 g mix + 5 litres milk
- ✓ Minimum finished output: approx. 6 litres
- ✓ Approximate yield: 80 servings of 75 g each
- ✓ Typical overrun: approx. 30%–50%, depending on machine and process

**i** Where the product is sold as ice cream, final milk-fat and compositional standards must comply with destination-market regulations. Otherwise, use product names such as soft serve or frozen dessert as locally permitted.

## 4 Compatible Equipment

|                    |                       |                  |                |
|--------------------|-----------------------|------------------|----------------|
| Soft-serve machine | Ice-cream churner     | Batch freezer    | Gelato machine |
| Traditional sancha | Hand-operated churner | Commercial mixer | Hand blender   |

**⚠** Not suitable for preparation in a standard home refrigerator or freezer without suitable churning equipment.
